Trần Quốc Đạt

Developer

Dob: 17/01/1996
Gender: Male
Phone: 0969275735
Email: dattq1701@gmail.com
Address: No. 8 - 35/46 Cát Linh, Đống Đa, Hà Nội

SUMMARY

- 4+ years of experience working with Unity and C#.
- Published 5+ games on the app stores.
- Experience working in both Tech Lead and Project Manager roles.
- Experience working with Git, Jira.

FTECH

04/2021 - Now

SENIOR UNITY DEVELOPER

- Manage project progress and ensure timely delivery of releases.
- Support and mentor junior developers.
- Build a reusable codebase that enables team members to work more efficiently and improves development speed.
- Link mini game: https://itch.io/profile/drakan1701

PROJECT HIGHLIGHTS

-

Waifu Battle
Project Manager

- Mid-core battle game with collectible characters and unique skill sets. Architected the real-time combat system, character-progression flow, and gacha economy, paired with vivid 2D animation to drive retention.
- Link: https://play.google.com/store/apps/details?id=fplay.vn.waifubattle
- Team size: 6
- Tech used: Unity, C#, Firebase, Google AdMob
- Duration: 4 months

-

Coffee Link: Cozy Puzzle
Project Manager

- Cozy tile-linking puzzle set in a coffee shop world, connecting matching items to clear boards and unlock cafe decor. Worked on the link/match logic, board generation, and level progression.
- Link: https://play.google.com/store/apps/details?id=com.fplay.linkmatch
- Team size: 5
- Tech used: Unity, C#, Firebase, Google AdMob
- Duration: 3 months

-

Skewer Fever: Sorting Puzzle
Unity Developer

- Casual sorting puzzle where players match grilled items to the correct plates. Implemented the core sort logic, level-data structure, and difficulty curve behind a one-tap, pick-up-and-play experience.
- Link: https://play.google.com/store/apps/details?id=com.Fplay.GrillSort
- Team size: 4

- Tech used: Unity, C#, Firebase, Google AdMob
- Duration: 2 months

-

Shopocalypse - Merge Survival
Unity Developer

- Merge-survival game where players combine scavenged items to rebuild a shop and fend off a post-apocalyptic world. Contributed to the merge mechanic, item-tier progression, and survival gameplay loop.
- Link: https://play.google.com/store/apps/details?id=com.FPlay.Shopocalypse
- Team size: 6
- Tech used: Unity, C#, Firebase, Google AdMob
- Duration: 3 months

-

Sticker Merge
Unity Developer

- Casual merge game where players combine stickers to unlock new ones. Developed the core merge mechanic and progression loop, polished the UI/UX, and tuned pacing to keep players engaged session after session.
- Link: https://play.google.com/store/apps/details?id=com.Fplay.StckerAlpha
- Team size: 5
- Tech used: Unity, C#, Firebase, Google AdMob
- Duration: 3 months

EDUCATION

2014 - 2018

National Economic University
Computer science
Graduated: Good

2016 - 2020

FPT APTECH
Computer science
Graduated: Good

OBJECTIVE

- Improve skills in both game development and game design.
- Improve English proficiency.

INTEREST

- Read books.
- Play games.
